RKG Associates

December, 2002

Table of Contents

The Hudson County Cyberdistrict Feasibility Study was comprised of three phases of work: a research of other city and county initiatives to use digital technology for economic development, an analysis of Hudson County, and, a set of recommendations and action steps. The Final Report below contains a summary of our findings and a comprehensive set of recommendations and action strategies. Two Background Memorandums are also included that fully document our research and findings on Hudson County.

Final Report

Cyber Recommendations and Action Strategy

Background Memorandums

I: Background Memorandum I - CyberProfile: A Review of Hudson County

Cyberprofile Appendix: Appendix A - Hudson County: A physical analysis
